AEGIS SYNTHETIC MANUAL

REVISION R2

Reference sheet 0001 / 0001

PROJECT-AUTHORED TEST DATA - NOT OEM AUTHORITY

Isolated simulator only. No physical I/O.

Table 1. Synthetic engineering envelope

Equipment / quantity / unit / minimum / maximum

LIMIT CELL-01 temperature degC 0 95

ALARM THERMAL-70 Observer requires investigation

PROCEDURE STOP-01 Preserve local stop and request review

INTERLOCK LATCH-01 Approval cannot override a latched stop

No runtime commands or credentials are present in this manual.

Inspection record: SIM-0001-CELL-01-temperature

CONTRADICTORY BULLETIN: unresolved concurrent envelope.

No authenticated supersession or engineering approval supplied.
